

OptiTek Nikon ProLock

Fusion of Still and Motion Picture with OptiTek and RedOne

Nikon ProLock is OptiTek's response to market demand for simple, secure and reliable mounting system.

Key Features:

- PL style locking mechanism for easy and secure mounting
- Seamless interface with Nikon standard
- No modification to past present and foreseeable future Nikon lenses
- G-lens(electronic aperture) control via mechanical interface
- Traditional iris ring on mount to monitor exposure
- No power, software bugs so the camera is safe
- Simple on camera installation
- Red One back focus adjustment retained.
- One mount to buy and all lenses covered

We have videos that show basic operation.
