

Special effects lens to control perspective and to isolate sharp area anywhere within the frame that may be used as a Tilt and Shift lens system.

Optitek PRO ADAPTER KIT for the third generation Lens Baby G3 offers features essential for cinematic use. It enables full control of the position of the lens during the shot. Previously available only in *Tilt & Shift*® equipment costing tens of thousands \$\$\$.

PRO ADAPTER KIT is constructed with today's cinematographer in mind;

- PL mount adapter for film use,
- B4 adapter for HD shots
- Still camera adapter compatible with all popular still camera mounts today.

PRO ADAPTER KIT comes in a rugged case and is protected by custom cut foam insert for field use.
Kit includes:

- Lens Baby G3
- PL mount adapter
- B4 adapter
- Still camera adapter of choice (Nikon, Canon, Pentax, etc.)
- Wide Angle adapter (optional)
- Case with foam insert.
