

High Performance 1.4x PL to PL Extender

A must have 24-290mm Angenieux Optimo companion

This extender was made to clear the back element of the Optimo 24-290mmT2.8. It maintains Optimo's exceptional image quality

Features:

1. Excellent optical performance throughout the range with NO visible resolution loss.
2. Turns your Optimo 24-290T2.8 into approx. 34-405mm T4 lens.
3. Easy installation
4. Adjustable locking mechanism
5. Precision stainless steel PL mount
6. Works on all older zooms (HP, HR) rendering excellent optical resolution.
